

**Submitted pre-convention**

**Which seated Worldcon would** **What is your question? \*Note, if an answer was provided in chat, it has been copied . Otherwise, check the video**

Answer provided in the chat:

DisCon III (2021) Maybe there is already on your agenda to answer. What is the status of your venue The Marriott Wardman Park. Will it be ok? If still not known, when you make an adjustment to another place? Will it be Shoreham, across the street?

DisCon III (2021) What is the theatre-seating capacity (\*not\* the individual standing capacity) of your Hugo Ceremony venue?

Chicon 8 (2022) What changes have been made to overcome the extreme accessibility problems encountered at the Hyatt in 2012?

DisCon III (2021) Have you found a location for your main event hotel?

DisCon III (2021) Why do you think that we cannot have conventions in August?

DisCon III (2021) You keep referring to the "facilities" (plural), but with the legal troubles at the Wardman Park, will both facilities be used, or will the convention only be at the Omni? If you don't know now, when will you know?

DisCon III and Chicon 8 part of the success of any convention is the staff of the facilities. Due to the pandemic, have either of your facilities lost personnel you considered vital to the successful running of your cons?

Chicon 8 (2022) What about suites?

Ben Yalow answered: chicon has lots of suites of all sizes. typically 2-4 suites per floor, and the pricing is not too bad. the last chicon sold over 100 suites.

Chicon 8 (2022) Will 10-15 year olds have site selection votes as well as for the Hugos.

Chicon 8 (2022) And cell phone reception in the lower levels?

DisCon III (2021) If you are in December how will that affect the timing for hugo voting and site selection.

DisCon III (2021)	<p>It's a minor factor, but I can't help but wonder about the effect of having Smofcon so closely before the Worldcon if DisCon III moves to December. Effects on both the Worldcon and Smofcon!</p> <p>how will you handle medical issues? There have been cons that no one had any idea of what to do.</p>	<p>Comment from james bacon I suggest reading it:: Smofcon Europe support any change that the DC III committee make, and we will manage the situation as we find it and hope we can work with them.</p> <p>Cathy Green: Georgetown and George Washington University Hospitals and Washington hospital Center are all level one trauma centers. Also, there is an urgent care in Adams morgan and a GWU urgent care in Cleveland park.</p>
DisCon III (2021)	<p>If Discon 3 become a virtual convention, will it be a change in membership fees?</p>	
Both conventions.	<p>To both seated cons: part of the success of any convention is the staff of the facilities. Due to the pandemic, have either of your facilities lost personnel you considered vital to the successful running of your cons?</p>
